

# INVO LED Batten Range

The new INVO LED batten fittings are designed to make installation fast and simple and also give the best possible energy savings. To achieve this, we use a very simplistic design. There are just 2 components within our INVO LED Battens Fittings; the LED driver and the LED gear tray, both of which are connected with simple push-fit connections. This allows for a very swift and easy install for the engineers. The very efficient LED means you can use a far lower powered LED fitting to produce equal, if not better, light levels than those already in place, coupled with our market leading 5 year warranty, you get peace of mind, fantastic lighting and amazing paybacks.

- > Swift and easy installation
- > Just 2 components; The LED gear tray and the driver with push fit connections
- > Direct replacement for fluorescent lights
- > 5 Year warranty
- > Optional 3hr emergency backup battery
- > 5000k cool white (other colours available)

5ft Single

5ft Twin

Modern High Power

Specification	PD-5ft-24W	PD-5ft-48W	Most Popular
			PD-5ft-45W-Modern
Power	24 Watt	48 Watt	45 Watt
Lumen	2100 Lumen	4300 Lumen	4590 Lumen
Beam angle	120°	120°	120°
Dimension	1535 x 69 x 105 mm	1535 x 120 x 105 mm	1525 x 58 x 58 mm
